Murry's New Early Market Tomato!

The only extremely early tomato without a fault, two weeks earlier than Early Wonder or any other early tomato, larger, solider, better keeper, better shipper, quality unsurpassed by any tomato, the most profitable tomato for the early market that I have ever seen. This tomato is a deep, rich red fruit, extra large for an early tomato and almost round, the vine is exceptionally strong and hardy, has withstood quite heavy frosts. This tomato is an exceptionally heavy yielder of first early fruit, which always demands a good price. Extra select stock seed, \$2.50 per ounce. I also have extra select stock seed of my Early Wonder tomato at \$1.50 per ounce. All seeds postpaid.
